A big, huge, heartfelt, KEEP IT ALIVE goes out to Kathy Rackley for all the hard work, creativity and planning that she put into our "Elected Officials Go to School Day". For any of you who had the pleasure of talking with Phil Jeffries while he was on campus, the challenges we face in garnering support for public education are now more clear than ever! Kathy's commitment to the students in Wake County and her work with the Superintendents' Advisory Committee have already positively impacted our community and I've no doubt that the results of her latest brainstorm will only continue that work! The fact that she advocated to get one of the County Commissioners to come here to Lincoln Heights afforded us the opportunity to gain a clearer understanding of the uphill battle we face in advocating for our profession, and hence our students. Thank you Kathy for giving up your time and also giving of your heart to help us all. We appreciate you!!!! ~ Kimberly

A huge THANK-YOU and  
Kori for helping me so much.  
I appreciate that you are  
my job without your help  
covering my extension of  
And I think I have said
