Cynthia --

Good Morning! I hope you find this well.

I was at yet another WCPSS meeting yesterday and ran into Kathy Rackley who mentioned that she had recently interviewed for a Partnership for Educational Success administrative position with you and Dennis.

I have known Kathy for about 3 years as we have worked together on Superintendent's Teacher Advisory Council. I have really enjoyed our work together and have found her to possess great initiative, attention to vision, superior follow through, and an amazing attitude. She has been a pleasure to work with!

Her interest in Prevention and Intervention isn't fleeting as from the moment we met, she has asked me to come to Lincoln Heights to train her staff on Intervention Strategies and is always picking my brain for various information about how to work with staff to increase their understanding of children and families so Lincoln Heights can best support their success.

I was excited about the possibility of her working with you and wanted to drop you a line. Should you have any specific questions, let me know. From the experiences I have had with Kathy, I think she would be great to work with and although

unsolicited, ... I would give her a strong recommendation.

Hope life is treating you well,
Kim
