

4. Smart Start Grant Hats off to Katherine Rackley who began the challenging process, 5 stars to the committee who has been continuing the process and lots of applause to Linda who is finishing the process by writing the grant. The Lincoln Heights staff, parents and community have focused their attention on early intervention for children who have not entered kindergarten. They have been discussing the issue of how to best meet the needs of the young children in the community. A final copy of the grant will be placed in your box.
